Before First Use

- **Warning! Risk of suffocation!** Keep any packaging materials away from children – these materials are a potential source of danger, e.g. suffocation.

Tips

- Place the UM10 as close as practical to the desired sound source.
- Work close to the microphone for extra bass response.
- Place UM10 as far as possible from reflective surfaces.

Setup

Configuration on Windows®

Note: This product is a Plug-and-Play device and does not require any driver installation.

- A pop-up notification will appear to signal that your computer is installing the drivers for the microphone.

Headphones / Speaker Settings

- Go to **Control Panel > Hardware and sound > Sound > Playback** and make sure that a green tick appears next to Speaker. If the green tick does not appear next to Speakers, select Speakers and then press Set Default.

Note: The UM10 is not equipped with a built-in speaker. In order to output the sound, an external speaker or headphones is required.

Microphone Settings

- Go to **Recording** (same window) and make sure that a green tick appears next to Microphone. If the green tick does not appear next to Microphone, select Microphone and then press Set Default.

Configuration on Mac OS®

Note: This product is a Plug-and-Play device and does not require any driver installation.

Microphone settings

- Go to System Preferences > Sound > Input and select USB Conference Mic.

Headphones / Speaker Settings

- Go to System Preferences > Sound > Output and select USB Conference Mic.

Specifications
